

Built for the miles you put in.

Hike Medical makes custom insoles designed specifically for the shape of your feet. As a JetBlue crewmember, you have access to Hike custom insoles at an exclusive rate, no clinic visit, doctor's referral, or health insurance required.

Custom insoles help offload the pressure of standing and walking so the strain doesn't spread to your shins, hips, and back. That's real support for the job you do every day.

- ✓ Quick 5-minute foot scan
- ✓ No doctor's visit required
- ✓ Delivery right to your door in about two weeks
- ✓ Exclusive JetBlue crewmember pricing at \$150 per pair, HSA-eligible
- ✓ Amazing fit guarantee, or we rebuild them for free

Hike will be onsite at select JetBlue Benefits Fairs throughout October to help crewmembers scan and order in person.
